

The Science Resource Center Production Assistant will be expected to:

1. Clean, count, sort, package materials for the science, engineering & maker kits.
2. Keep volunteer/work study space clean.
3. Other duties may be assigned related to the refurbishments of our science, engineering & maker kits.
4. Have a good time & learn a lot.

Candidate must (all of the following apply):

- Possess a positive, can-do attitude.
- Communicate clearly.
- Be willing to learn.
- Possess independent judgment skills to determine if a product is useable in a classroom setting.
- Work well with others and independently.
- Be professional at all times while representing the Einstein Project.
- Understand our mission and vision and believe in the work that we do.

Work schedule is flexible Monday through Friday (8am-4pm). Other student employment benefits include occasional "extra" paid team building activities and a fantastic work environment that supports children and educators.
